Checklist of the formalities before arrival at FHWS

The following formalities should be done before your arrival at FHWS:

☐ Sending the declaration of acceptance per post (concerns only full-time students)

If you want to study at FHWS, you must send the declaration of the acceptance, which is generated online in the FHWS application portal after a successful online enrolment, by post to the FHWS.

☐ Accommodation

Since finding an accommodation in Germany could be very difficult and take quite some time, look for a room or an apartment in time.

☐ Visa

Applicants from non-EU member states partly require a visa for their study stay in Germany. They have to apply for it at the German embassy in their home country.

☐ Health insurance

In order to enrol at FHWS, students need a valid health insurance. We recommend to contact a German public health insurance after your arrival to Germany.

☐ Registration for the orientation programme

During the orientation programme, international students receive support in handling administrative formalities and get important information about their studies at FHWS and life in Germany.

☐ Registration for the buddy programme

The study programmes of Business & Engineering, Logistics and International Management offer buddy programmes for their first semester international students. You can register by email.

☐ Preparation of your journey

Plan your trip to Germany in time in order to attend the orientation programme.
